PROFESSIONAL SUMMARY

Computer Science graduate with 1.5 years of experience at Cognizant, specializing in web development using React and Node.js. Skilled in building clean, responsive web applications and reliable backend services using Express.js and PostgreSQL. Strong foundation in technical problem-solving, software development, and writing quality code. Passionate about delivering reliable solutions and contributing to meaningful projects while continuously expanding technical expertise within a dynamic team.

TECHNICAL SKILLS

Front-End : React, Javascript, HTML , CSS

Back-End : Node.js, Express.js, PostgreSQL, REST APIs

Tools : GIT

WORK EXPERIENCE

Programmer Analyst

Cognizant | Jul 2025 - Present

- Developed and maintained responsive web applications using React for the client in the healthcare and insurance domain, delivering features that improved usability and workflow efficiency.
- Contributed to the majority of projects deliverables, ensuring timely and smooth release across development cycle
- Provided IT support by troubleshooting and resolving technical issues, minimizing downtime and maintaining system reliability for end users.

EDUCATIONS

B.TECH, Computer Science and Engineering

Sri Manakula Vinayagar Engineering College - Puducherry

2021 - 2025 | CGPA : 8.27

HSC(STATE BOARD)

Amalorpavam Higher Secondary School - Puducherry

2020 - 2021| Percentage: 91.8%

SSLC(STATE BOARD)

Amalorpavam Higher Secondary School - Puducherry

2018 - 2019| Percentage: 90%

PROJECTS

RESOLVE | React , Node.js , Express.js , PostgreSQL

- Built Resolve, a full-stack DSA practice tracker that logs solved coding problems, tags them by algorithmic patterns, and schedules spaced repetition to improve long-term retention.
- Designed a normalized PostgreSQL database and RESTful API supporting CRUD operations, with routes protected by JWT-based authentication and bcrypt password hashing.
- Implemented secure multi-user data isolation by scoping every database query to the authenticated user ID, preventing unauthorized cross-user data access .
